LABORATORY
P r o d u c t s

GENAXY[®]

SCIENTIFIC PVT. LTD.

GENAXY 'Generation Next in Biotechnology' was founded in 1999 with its corporate office in New Delhi and Head office in Solan (H.P). Genaxy is equipped with friendly, motivated, knowledgeable and well trained staff in all the departments imparting new technologies and better support. Genaxy has maintained its no. 1 position in bio supplier industry even after two decades by growing along with our ever increasing customer base.

Genaxy's presence in 90% of Indian labs with Axygen plasticware products combined with the surge in both R & D & Production motivated us to start our own manufacturing facility in Solan. Genaxy ventured into the plastic manufacturing business in 2001. Since then Genaxy has been an unstoppable force and has grown to be recognized as a global leader in manufacture of vastly used **Pipette tips, Petri Dishes, Micro Centrifuge tubes, Screw Cap tubes, Ria Vials, Storage racks and custom plastic injection moulding.**

Quality Standard

Genaxy proclaims about its high quality plastic ware with its high end machinery and strict quality procedures. Since our inception the **Total Quality Management** concept is our prime focus. A rigorous quality check is incorporated at each stage of production to ensure flawless and best quality products. The sole motto behind these stringent quality tests such as steel ball test etc. is to provide international quality product at an affordable price. Our manufacturing facility is ISO 9001:2008 compliant and our products are nonpyrogenic and certified RNase/DNase free.

Why Us?

We are the preferred choice when our clients require high quality Laboratory Plastic Consumables. Our successful and remarkable growth in the market is based on following parameters :

- ✓ High Quality Products
- ✓ Competitive Pricing
- ✓ Product Customization
- ✓ After-Sales Services
- ✓ Timely Delivery

Client Satisfaction

We have maintained a pleasant relationship with our clients to offer them products as per their specifications. The effectiveness and quality of our products is defined by the repetitive orders from our valued clients. We understand the budgetary constraints of our client's, so we offer them our superior quality products at highly competitively price. Owing to our transparency in business dealings and client centric approach, we have garnered the confidence of our valued clients.

GENAXY has abounded itself as an Assured and Ultimate destination for some panache products by our esteemed principals like Axygen Inc., USA; Corning Life Sciences USA; Axygen Biosciences, USA; Gentrox, USA; qARTA'BIO, USA; Serva Electrophoresis, Germany; MOBIO, USA; Favorgen Biotec Corp, Taiwan; Labnet International, USA; Nuve, Turkey; MPW, Poland; Polyscience, USA; Hoefer, USA; TAIWAN HIPPOINT, Taiwan; Yoke, China; Nichiryo, Japan; Vitlab, Germany whose rights has made it possible for us to justify our commitment to the research fraternity "You Name It – We Have It!!", whether for plastic wares, bioscience reagents & kits, instruments or liquid handling devices.

Genaxy has already created its mark as a dependable and reliable plastic manufacturer in India and an efficient collaborator in Europe, USA and some parts of South East Asia. Genaxy now aspires to extend its wings in rest of the world and become a trustworthy supplier of plastic products globally.

Where Performance Excels

Genaxy Scientific, a name that itself speaks of its highest quality with versatility, a company that has been a paramount destination for the laboratory products in the field of biotechnology a related spheres of life sciences for over a decade.

GENAXY INTRODUCES

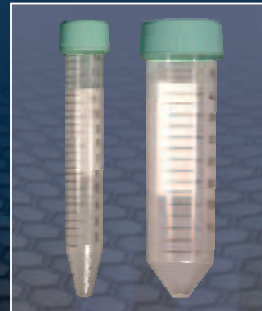

GENAXY UNIVERSAL TIPS

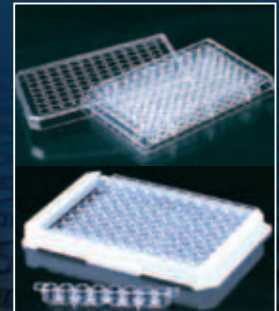

PETRI DISHES

GLOVES

CONICAL CENTRIFUGE TUBES

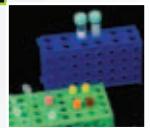

MICRO TITER PLATES

Centrifuge Tubes

- Printed graduations and writing area for Sample Identification
- Caps can be closed with one hand
- Available in bulk non-sterile and pre-sterilized formats
- 50ml rated to 12,000g; 15ml to 12,000g

Advantages

Dust-free Clean Facility

*DNase/RNase and Pyrogen-free products
Highest standard quality maintained*

First-class mold equipments

Good injection molding equipment

*Mature injection process
Stable product quality*

Highly automated manufacture

*Efficiency improvement
More stable quality and safety*

Strict Product Quality Control

Online QC

*Appearance inspection: Flash, bubbles, contamination, alignment
Sample inspection: Inspection at a certain interval for every lot*

Laboratory Inspection

Appearance inspection, autoclavable sterilization, CV data, leakage test, size measurement

UNIVERSAL FIT GENTIPS

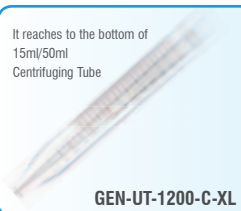

The invention of Universal Fit GENTIPS combines over 10 years of research and development to bring our customers an exclusive solution for pipet tip performance. No other pipet tip will retain less fluid than GENAXY'S Universal Fit Pipet Tips which are available in BulkPacks and MiniRacks.

Bulk tips are bagged and heat-sealed in "puncture resistant" laminated nylon-base DispenserPacks. Super-wide gusset at bottom of DispenserPack allows to stand neatly upright on the lab bench.

We use only USP Class 6, FDA-approved medical-grade, bovine-free, heavy metal-free plastic resins, running in state-of-art manufacturing facility.

- All GENTIPS are molded in exclusive 99.9% virgin polypropylene resin
- Tips fit all single and multi-channel pipettors
- Beveled orifices for total sample recovery
- All MiniRacks and Lids are molded exclusively of internally-generated recycled polypropylene to ensure utmost cleanliness and performance

It reaches to the bottom of
15ml/50ml
Centrifuging Tube

LOW RETENTION GENTIPS

LOW RETENTION -
allows complete retrieval
of precious samples

Universal Fit Tips -
compatible with most
popular brands of
pipettors

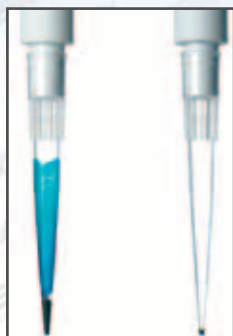

Universal Tit & Aerosol Barrier Tips
- available in bulk and
racked formats

LOW RETENTION GENTIPS in MiniRacks

Low Retention technology tips are available on most of tips, and offer unparalleled maximum recovery of precious samples and reagents, and unsurpassed pipetting accuracy and reproducibility.

Bulk tips are bagged and heat-sealed in "puncture resistant" laminated nylon-base DispenserPacks. When user received the bag, immediately recognize that it was delivered without tampering. Super-wide gusset at bottom of DispenserPack allows to stand neatly upright on the lab bench.

We use only USP Class 6, FDA-approved medical-grade, bovine-free, heavy metal-free plastic resins, running in state-of-art manufacturing facility. All racks and lids are also made in-house with internally recycled resins to ensure the upmost cleanliness and performance. Final products are packaged for integrity and user-friendliness.

GENAXY Filter Tips optimal protection, holds back aerosol chances

- **ultra smooth surfaces**
- **exclusive molding technology**
- **reduce sample loss**
- **save costly reagents**
- **maximize accuracy and precision**

Utilizing a unique manufacturing process, Genaxy Scientific has developed an innovative series of pipette tips, that feature ultra smooth surfaces.

LOW RETENTION - allows complete retrieval of precious samples

Universal fit tips - compatible with most popular brands of pipettors

Aerosol barrier tips - prevent aerosol and liquid contamination

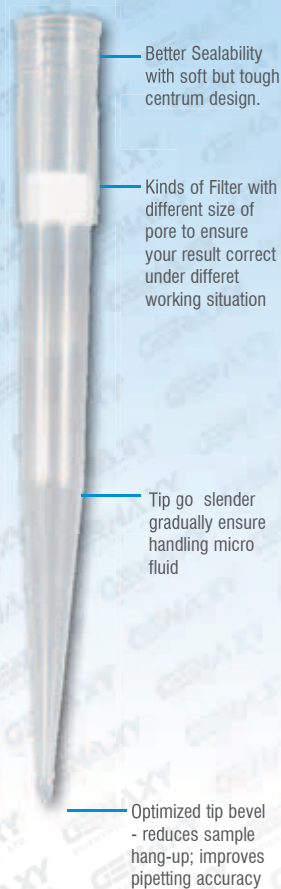

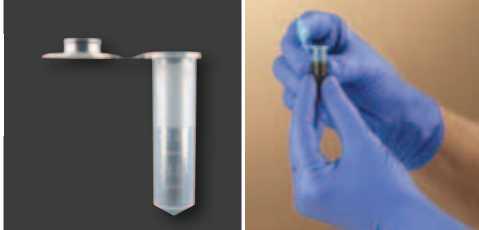

Universal fit & aerosol barrier tips - available in bulk and racked formats

Optimized tip bevel - reduces sample hang-up; improves pipetting accuracy

Graduation marks - allow a visual confirmation of pipettor draw volume

Protection against Aerosol Contamination

In liquid handling, the droplets motions (flow, splash, residual sample blow-out and etc) easily generate aerosols. Aerosols are colloidal dispersions which are formed by dispersing and suspending fine solid-particles or liquid-droplets in gaseous medium. The solid or liquid particles with particle size 0.001~100um, mainly include droplets bacterial, virus, mycoplasma, DNA, RNA, biomolecules, special-reagent molecules and etc. Along with the passage generated by negative-pressure, aerosols pass into the pipette and diffuse through 2 ways. One is cross contamination, aerosols from the pipetting of last sample accessing into the next sample; another is diffusion into air, and cause potential harm for the operator when handling hazardous samples, such as with Ebola, AIDS virus, or radioactive samples and etc.

GENTip Dual-layered Filters

GENTip Dual-layered Filters

GENTip dual-layered filter has utilized the superb hydrophobicity of UHMW-PE to prevent aerosols from passing through filter and entering into pipette, also protect against impurities of pipette from contaminating samples.

Maximum Air-permeability, Strengthen Blocking Capacity

GENTip dual-layered filter consists of two layers with different pore size. The pore size of the upper blue layer is 5 μ m, and the pore size of the down white layer is 10 μ m, which assures the consistent air flow and strengthen the blocking capacity of aerosols.

Dual-layered Filters, Dual Barriers

With dual barriers : the 10 μ m white layer blocking droplets, splashes and suspending particles; the 5 μ m blue layer preventing biomolecules efficiently, the dual-layered filter has reinforced blocking property.

GENTip dual-layered filter is free of DNase/RNase, endotoxins and PCR inhibitors for liquid handling including PCR, radioactive, biotoxic, chemical corrosive and volatile samples.

Standard MicroTube Rack System Components

- + Available as single tubes or in strips of 8/12 tubes
- + Both tubes & racks are of polypropylene & can be autoclaved
- + This system is compatible with robotic workstations like Beckman, Tecan etc. with alpha-numeric grid
- + Sterilized as well as non-sterilized tubes, strip tubes, tube racks and strip caps are available
- + Can be used for sample preparation, collection, storage, transportation etc.

Microplates

Vision Plate™ 24/96/384 Well

190 micron clear based imaging microplate, black frame

Vision Plates™ have been designed for high content screening (HCS) assays in drug development and related areas. They're also suitable for homogeneous assays, employing fluorescence intensity, FRET and TR-FRET where measurements are bottom-read. The high quality optical base plate assures the accuracy and consistency necessary for automated high throughput systems and generating optimum signal-to-noise ratios.

- ✦ Optimum signal-to-noise ratios
- ✦ SBS footprint
- ✦ Recommended for confocal microscopy due to reduces cross-talk and superior base flatness
- ✦ Reduced autofluorescence ensures their suitability for fluorescent assays
- ✦ Suitable for assays that measure absorbance in the visible light range (400-900 nm wavelengths)
- ✦ Suitable for colorimetric assays
- ✦ Good cell adhesion
- ✦ Cyto-toxic free, RNase, DNase, Human Genomic DNA Free
- ✦ Suitable for homogeneous assays
- ✦ Alphanumeric grid reference
- ✦ Suitable for use in BMG lab tech, Molecular Devices, Promega Glomax and other plate readers

Black Solid Bottom Assay Plates

The Black Solid Bottom Assay plate has been specifically designed for fluorescence and scintillation applications. Made from polystyrene, it is also suitable for homogeneous assays employing fluorescence intensity, FRET and TR-FRET where measurements are top-read. This high quality plate assures the necessary accuracy and consistency for automated high throughput systems, generating optimum signal to noise ratios.

24/96/384 Well Black Assay Plate

The 24 well polystyrene assay plates have flat bottom wells and have been designed for fluorescence applications. The plates give optimum results for most top-reading instruments and conform to standard SBS footprint. Black plates have a low background fluorescence and minimise light scattering.

This high quality plate assures the necessary accuracy and consistency for automated high throughput systems.

- ✦ Polystyrene - a hard material with optical clarity - best used for cell culture, fluorescence, luminescence, ELISA, and homogeneous assays
- ✦ Black Solid Bottom Frame - low background fluorescence and minimise light scattering, suitable for fluorescent and light assays and imaging, recommended for top reading fluorescence instrumentation

- ✦ Flat Bottom Wells - designed for optical imaging and cell culture application
- ✦ Round Wells - for reduced droplet effects and wicking
- ✦ SBS footprint - compatible with plate readers and ideal for use with automation
- ✦ Alphanumeric grid reference

Catalog No.	Description	Qty/Pack	Price/Pack (Rs.)

GEN-0281	384 Well Microplate Lid, low profile, without condensation rings, sterile	100 lids	20,805.00

White Solid Bottom Assay Microplates

The White solid bottom assay microplates have been specifically designed for luminescence applications, such as Luciferase Reporter Assays, due to the white plate maximising signal intensity in cases of low signal from some or all the wells. The plates give optimum results from most top-reading instruments, and conform to the standard SBS footprint.

96/384 Well White Assay Plate

350 µl round wells, flat bottom, white polystyrene

These 96 well polystyrene assay plates have flat bottom wells and have been designed for luminescence applications, such as Luciferase Reporter Assays. The white plate maximises signal intensity in cases of low signal from some or all the wells, and it is designed to give optimum results for most top reading instruments, and to conform to standard SBS footprint.

Polystyrene - a hard material with optical clarity - best used for cell culture, fluorescence, luminescence, ELISA, and homogeneous assays

White Solid Bottom Frame - low background fluorescence and minimise light scattering, so are suitable for fluorescent and light assays and imaging, and recommended for top reading fluorescence instrumentation.

- ✦ Flat Bottom Wells - designed for optical imaging and cell culture application
- ✦ Round Wells - for reduced droplet effects and wicking
- ✦ SBS footprint - compatible with plate readers and ideal for use with automation
- ✦ Suitable for use in BMG labtech, Molecular Devices, Promega Glomax and other plate readers
- ✦ Leak-free
- ✦ Non-sterile as standard - sterilisation available upon request
- ✦ Alphanumeric grid reference

Clear Assay Microplates

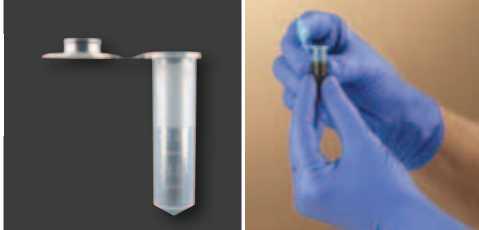

384 Well Clear Assay Microplate

120 µl rounded square wells, flat bottom, clear polystyrene

The non-treated clear microplate is ideal for colorimetric assays and sample storage. The rounded square wells eliminate wicking (capillary action). The flat bottom is ideal for optical reading.

- ✦ Polystyrene - a hard material with optical clarity - best used for cell culture, fluorescence, luminescence, ELISA, and homogeneous assays
- ✦ Clear Plate - offers the best solution for absorption, ELISA, spectrophotometric and colorimetric assays, and storage applications
- ✦ Flat Bottom Wells - designed for optical imaging and cell culture application

- + Rounded Square Wells - for reduced droplet effects and wicking
- + SBS footprint - compatible with plate readers and ideal for use with automation
- + Suitable for use in BMG labtech, Molecular Devices, Promega Glomax and other plate readers
- + Non-sterile as standard - sterilisation available upon request
- + Alphanumeric grid reference
- + Lids available

GEN-0254	384 Well Assay Plate, solid bottom, clear	100 plates	39,035.00
GEN-0280	384 Well Microplate Lid, low profile, without condensation rings, non-sterile	100 lids	20,165.00
GEN-0281	384 Well Microplate Lid, low profile, without condensation rings, sterile	100 lids	20,805.00

Storage Plates

We offer a wide range of plates to support different applications and levels of throughput. Our storage plates are produced in cleanroom facilities which are certified free of RNase, DNase, human genomic DNA and endotoxins. We use only the highest medical grade virgin polypropylene with high resistance against chemicals such as DMSO, phenol, and chloroform. Our storage plates have a standard SBS footprint and are therefore compatible with robotics and automation.

Reservoir Plates

Pyramid channel bottom, clear polypropylene

Our Reservoir Plates are perfect for storing volumes of samples to be pipetted into other microplates for further applications. Both plate formats - open format and 12 column format - are compatible with standard 12 and 96 well channel pipettes, and are suitable for automated systems, for instance the PerkinElmer® Sciclone® NGS Workstation.

These plates are manufactured in cleanroom facilities which are certified free of RNase, DNase, human genomic DNA and endotoxins. We use only the highest medical grade virgin polypropylene with high resistance against chemicals such as DMSO, phenol, and chloroform. Pyramid channel bases are best for small volume recovery. The standard SBS footprint ensures its compatibility with automation.

Polypropylene - has very low biomolecular binding characteristics, a high temperature tolerance and resistance to many standard laboratory chemicals, including DMSO.

Pyramid Channel Bases - perfect for maximum sample retrieval - even the smallest volume can be retrieved as it gathers in the base of the pyramid, and can be easily taken in by a pipette. Both the open format plate (GEN-0133) and the 12 channel plate (GEN-0131) have pyramid bases.

- + Rectangular Channels (GEN-0131) - ensures the best use of space and allow the use of multichannel pipettes
- + SBS footprint - compatible with plate readers and ideal for use with automation
- + Non-Sterile as standard - sterilisation available upon request
- + Suitable as a collection plate from filter systems
- + Temperature range for use -80° C to 120°C
- + Alphanumeric labelling
- + Stackable
- + Autoclavable

Catalog No.	Description	Qty/Pack	Price/Pack (Rs.)
GEN-0131	12 Channel Reservoir Plate, 21 ml channels, pyramid bases, clear polypropylene	5 x 5 plates	29,185.00
GEN-0133	290 ml Reservoir Plate, open format, 12 channel pyramid base, clear polypropylene	5 x 5 plates	29,185.00

384 Deep Well Storage Microplate

190 µl square wells, V shaped bases, clear polypropylene

This plate is designed for high density sample collection and storage, for a wide array of applications such as cell biology, molecular biology and drug discovery.

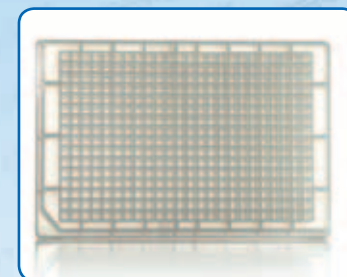

As seen below, the V shaped wells allow for complete sample retention with pipettes, and are ultra-flat for a completely uniform seal, either with adhesive or heat seals, or with our accompanying silicone sealing mat (GEN-0139).

Our plates are manufactured in cleanroom facilities which are certified free of RNase, DNase, human genomic DNA and endotoxins. We use only the highest medical grade virgin polypropylene with high resistance against chemicals such as DMSO, phenol, and chloroform.

- + Polypropylene - has very low biomolecular binding characteristics, a high temperature tolerance and resistance to many standard laboratory chemicals, including DMSO
- + Clear Plate - perfect for storage applications
- + Conical V-bottoms - are best for precipitation, centrifugation and small volume recovery, as the liquid gathers at the lowest point of the V for easy pipetting
- + Square Wells - makes the best use of space, and improves mixing
- + SBS footprint - compatible with plate readers and ideal for use with automation
- + Non-Sterile as standard - sterilisation available upon request
- + Temperature range for use -80° C to 120°C
- + Alphanumeric labelling
- + Stackable
- + Autoclavable
- + Suitable for adhesive and heat sealing
- + A clear silicone sealing mat is also available to fit this product, with 384 sections to correspond with the wells of this plate. See the image below for what it looks like

Catalog No.	Description	Qty/Pack	Price/Pack (Rs.)
GEN-0147	384 Well Deep Well Storage Microplate, 190 μ l square wells, V shaped bases, clear polypropylene	100 plates	62,055.00
GEN-0139	Silicone Sealing Cap Mat, clear, with 384 square caps	50 mats	32,135.00

Square 96 Deep Well Storage Plates

1.2 ml or 2.2 ml square wells, U or V shaped bases, clear polypropylene

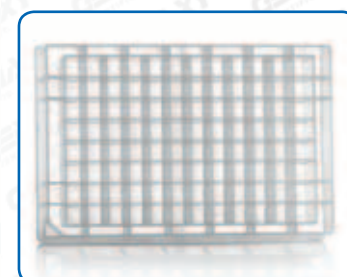

They come in three formats - 1.2 ml volume U shaped well plates (GEN-0126), 2.2 ml volume V shaped (GEN-0132), and 2.2 ml volume U shaped (GEN-0136) well plates.

These popular plates are designed for high density sample collection and storage for a wide array of applications, such as cell biology, molecular biology and drug discovery. GEN-0126 is also recommended as an elution plate on KingFisher™ platforms.

All of these plates are ultra-flat for a completely uniform seal; either with adhesive or heat seals, or with our accompanying silicone sealing mat (GEN-0137).

These plates are manufactured in cleanroom facilities which are certified free of RNase, DNase, human genomic DNA and endotoxins. We use only the highest medical grade virgin polypropylene with high resistance against chemicals such as DMSO, phenol, and chloroform.

- + Polypropylene - has very low biomolecular binding characteristics, a high temperature tolerance and resistance to many standard laboratory chemicals, including DMSO.
- + Clear Plate - perfect for storage applications.
- + U-Bottoms - are best for washing, mixing and pelleting and give high surface area; available in 1.2 ml volume (GEN-0126) and 2.2 ml volume (GEN-0136)
- + Conical V-Bottoms - are best for precipitation, centrifugation and small volume recovery, as the liquid gathers at the lowest point of the V for easy pipetting; available in 2.2 ml volume (GEN-0132).
- + Square Wells - makes the best use of space, and improves mixing.
- + SBS footprint - compatible with plate readers and ideal for use with automation
- + Non-Sterile as standard - sterilisation available upon request
- + Temperature range for use -80° C to 120°C
- + Alphanumeric labelling
- + Stackable
- + Suitable for adhesive & heat sealing, there is also an optional sealing mat available for use with GEN-0126, GEN-0132 and GEN-0136.

Catalog No.	Description	Qty/Pack	Price/Pack (Rs.)
GEN-0126	96 Deep Well Storage Microplate, 1.2 ml square wells, U shaped bases, clear polypropylene	10 x 10 plates	36,455.00

Catalog No.	Description	Qty/Pack	Price/Pack (Rs.)
GEN-0132	96 Deep Well Storage Microplate, 2.2 ml square wells, V shaped bases, clear polypropylene	10 x 5 plates	33,975.00
GEN-0136	96 Deep Well Storage Microplate, 2.2 ml square wells, U shaped bases, clear polypropylene	5 x 10 plates	22,925.00
GEN-0137	Silicone Sealing Cap Mat, clear, with 96 square caps	50 mats	29,095.00

Round 96 Well Storage Plates

200 µl, 300 µl or 350 µl round wells, U or V shaped bases, clear polypropylene

These shallow 96 well storage microplates are particularly suitable for collection and preservation of samples widely used in cell biology research, molecular biology research, and drug discovery.

Four formats are available of this plate - a U-bottom plate with 300 µl or 350 µl well volumes (GEN-0110 and GEN-0116 respectively), and a V-bottom plate with 200 µl or 350 µl well volume (GEN-LB0109 and GEN-0117 respectively).

Now also available: a Low Binding plate with ultra-low DNA binding properties (GEN-LB0109) for sensitive applications such as Next Generation Sequencing sample preparation.

All of these plates are ultra-flat for a completely uniform seal; either with adhesive or heat seals, or with our accompanying silicone sealing mat (GEN-0138).

The plates are manufactured in cleanroom facilities which are certified free of RNase, DNase, human genomic DNA and endotoxins. We use only the highest medical grade virgin polypropylene with high resistance against chemicals such as DMSO, phenol, and chloroform.

Polypropylene - has very low bio molecular binding characteristics, a high temperature tolerance and resistance to many standard laboratory chemicals, including DMSO.

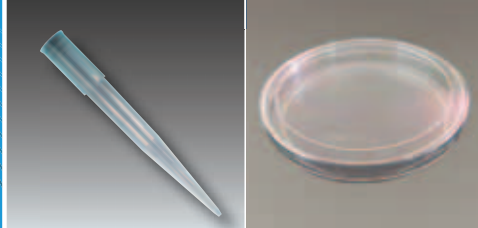

We now offer Low Binding Microplates (GEN-LB0109) with ultra-low DNA binding properties for sensitive applications such as Next Generation Sequencing sample preparation. The plates are made of selected low bind polymers, no coating is used to achieve the binding characteristics. The plate features stacking ribs under the deck for improved stability, strengthening the plate for use in robotic automation applications (not suitable for use on PCR blocks).

Clear Plate - perfect for storage applications.

- + U-Bottoms (GEN-0110 and GEN-0116) - are best for washing, mixing and pelleting and give high surface area
- + Conical V-Bottoms (GEN-LB0109 and GEN-0117) - are best for precipitation, centrifugation and small volume recovery, as the liquid gathers at the lowest point of the V for easy pipetting.
- + Round Wells - are suitable for most applications as they reduce droplet effects and wicking.
- + SBS footprint - compatible with plate readers and ideal for use with automation
- + Non-Sterile as standard - sterilisation available upon request
- + Suitable as a collection plate from filter systems
- + Temperature range for use -80° C to 120°C
- + Alphanumeric labelling
- + Stackable
- + Autoclavable

Catalog No.	Description	Qty/Pack	Price/Pack (Rs.)
GEN-LB0109	96 Well Storage Microplate, 200 µl round wells, V shaped bases, clear polypropylene, Low Binding	50 plates	17,305.00
GEN-0110	96 Well Storage Microplate, 300 µl round wells, U shaped bases, clear polypropylene	100 plates	21,635.00
GEN-0116	96 Well Storage Microplate, 350 µl round wells, U shaped bases, clear polypropylene	10 x 10 plates	21,635.00
GEN-0117	96 Well Storage Microplate, 350 µl round wells, V shaped bases, clear polypropylene	10 x 10 plates	21,635.00
GEN-0138	Silicone Sealing Cap Mat, clear, with 96 round caps (not for use with GEN-0110)	50 mats	29,095.00

Round 96 Deep Well Storage Plates

1.2 ml or 2.0 ml round wells, U shaped bases, clear polypropylene

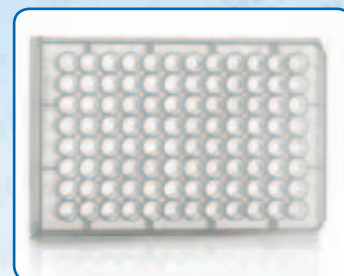

These 96 deep well storage microplates are suitable for many manual and automated protocols, such as the Illumina® library and sample preparations, due to the plates' SBS footprint. Additionally, they are suitable for use on magnetic plates for bead separation protocols.

Our round deep well storage microplates are available in two types of well volumes - 1.2 ml wells (GEN-0120) and 2.0 ml wells (GEN-0130).

Both of these plates are ultra-flat for a completely uniform seal; possible with either adhesive or heat seals, or with our accompanying silicone sealing mat (for the 1.2 ml plate use the GEN-0135 mat, for the 2.0 ml plate use the GEN-0138 mat).

The plates are manufactured in cleanroom facilities which are certified free of RNase, DNase, human genomic DNA and endotoxins. We use only the highest medical grade virgin polypropylene with high resistance against chemicals such as DMSO, phenol, and chloroform.

- + Polypropylene - has very low biomolecular binding characteristics, a high temperature tolerance and resistance to many standard laboratory chemicals, including DMSO.
- + Clear Plate - perfect for storage applications.
- + U Shaped Base - are best for washing, mixing and pelleting, and give a high surface area.
- + Round Wells - are suitable for most applications, as they reduce droplet effects and wicking.
- + SBS footprint - compatible with plate readers and ideal for use with automation.
- + Non-Sterile as standard - sterilisation available upon request
- + Suitable as a collection plate from filter systems
- + Temperature range for use -80°C to 120°C
- + Alphanumeric labelling
- + Stackable
- + Autoclavable

Catalog No.	Description	Qty/Pack	Price/Pack (Rs.)
GEN-0120	96 Deep Well Storage Microplate, 1.2 ml round wells, U shaped bases, clear polypropylene	50 plates	24,585.00
GEN-0130	96 Deep Well Storage Microplate, 2.0 ml round wells, U shaped bases, clear polypropylene	50 plates	33,975.00
GEN-0135	Silicone Sealing Cap Mat, white, with 96 round caps (for GEN-0120 only)	100 mats	45,395.00
GEN-0138	Silicone Sealing Cap Mat, clear, with 96 round caps (not for GEN-0120 and GEN-0110)	50 mats	29,095.00

96 Well Microtiter/Elisa Plates

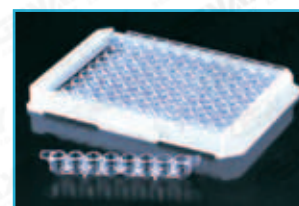

GENAXY offers a line of quality Microtiter plates for manual or automated sample processing. Made from 99.99% Virgin Material. 96 Well Format.

GENAXY[®]

PCR Plasticware

PCR TUBES

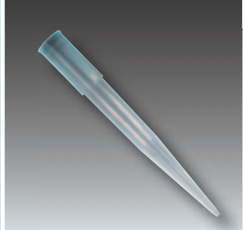

- ✦ Quantitative PCR compatible tubes and plates.
- ✦ Certified to be RNase- and Endotoxin safe
- ✦ Ultra-smooth, uniform, thin-walled polypropylene tubes for optimum PCR and real-time (RT, qPCR) results
- ✦ Unique cap design prevents sample evaporation
- ✦ Available with clear well tubes or white well tubes-white well tubes giving the highest sensitivity and consistency for fluorescent detection during qPCR
- ✦ Compatible with standard multichannel pipettes

8/12 Strips PCR Tubes & Caps

- GENAXY has both clear and white 0.2 ml PCR tubes, which respectively apply to the general PCR and qPCR reactions .
- Same colored 0.1 ml low profile PCR tubes can be applied to the same usage.
- 15.4mm low profile tubes are designed to minimize the condensate contamination, particularly for the overnight experiment .
- 0.1 ml low profile PCR tubes can also reduce the evaporation of the reaction solution and increase the real-time PCR fluorescent signal strength.

PCR PLATES

96 well no skirt, flat top PCR microplate is designed to fit standard 96 well blocks & low profile 96 well blocks. Ultra-thin and consistent wall thickness allows precise thermal transfer for optimum results. Can be sealed with 8/12 strip caps or sealing film.

PCR Plate, no skirt

- ✦ Low profile design results in faster and more efficient PCR reactions.
- ✦ Certified RNase-/DNase-free
- ✦ Nonpyrogenic & Nonsterile
- ✦ Manufactured with 99.9% pure virgin polypropylene
- ✦ Application/Compatibility (0.1ml Low Profile Plates): Standard Biometra thermal cyclers, Eppendorf MasterCycler qPCR, MJ Opticon/Chromo4 qPCR
- ✦ Application/Compatibility (0.2ml Plates): Standard thermal cycling, BioRad qPCR systems, Statagene MX-3000

Adhesive Sealing Consumables & Sealing Accessories

Adhesive seals provide a versatile, yet robust, method for protecting samples. The seals are supplied as sheets. Most adhesive seals are supplied with convenient tabs on both ends for easy application and removal.

These tabs also enable easy peeling to remove a seal without leaving adhesive residue on the sealing surface. All our seals are produced and processed under strictly controlled environmental conditions and certified free from DNase, RNase and human genomic DNA.

PCRseal

Clear adhesive film, strong adhesive, peelable, suitable for PCR and optical applications.

- + Durable transparent polyester film with a strong adhesive layer
- + Recommended for PCR, qPCR, and other optical applications as well as sample storages

Catalog No.	Description	Qty/Pack	Price/Pack (Rs.)
GEN-0500	Sheets (135 mm x 80 mm)	100	5,825.00

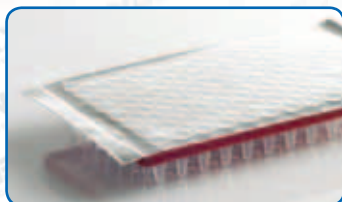

qPCRseal

Optically clear adhesive film, pressure activated adhesive, peelable, suitable for qPCR and optical applications.

- + Non-sticky film with a strong pressure-activated adhesive
- + Non-sticky when removed from the packaging - improved handling when wearing gloves
- + Specifically developed for optical applications, particularly qPCR

Catalog No.	Description	Qty/Pack	Price/Pack (Rs.)
GEN-0560	Sheets (140 mm x 77 mm)	100	15,715.00

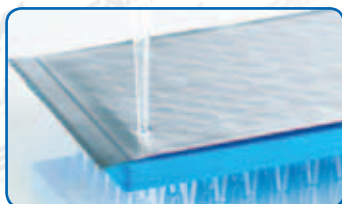

PCR Foil seal

Pierceable adhesive aluminium foil, strong adhesive, peelable, suitable for high temperature applications.

- + Aluminium foil seal with a strong acrylic adhesive producing a seal of high integrity
- + Effectively prevents sample evaporation - suitable for PCR and other high temperature applications

Catalog No.	Description	Qty/Pack	Price/Pack (Rs.)
GEN-0550	Sheets (130 mm x 80 mm)	100	6,595.00

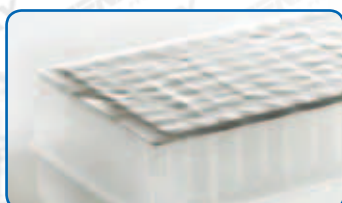

PCR Foil seal Strong

Adhesive aluminium foil, strong adhesive, peelable, pierceable, suitable for high temperature incubations and low temperature storage.

- + Pierceable aluminium foil seal with our strongest acrylic adhesive
- + Recommended for PCR and low temperature storage

Catalog No.	Description	Qty/Pack	Price/Pack (Rs.)
GEN-0500FL	Sheets (137 mm x 80 mm)	100	11,860.00

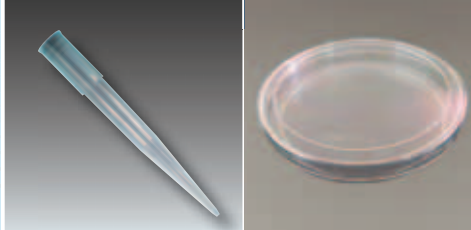

DMSO Resistant Foil

Peelable adhesive foil, strong adhesive, high solvent resistance, suitable for long term storage.

- + Peelable foil seal with a strong adhesive
- + Chemically resistant silicone adhesive layer producing a seal with high levels of solvent resistance, including to Dimethyl Sulfoxide (DMSO)

Catalog No.	Description	Qty/Pack	Price/Pack (Rs.)
GEN-0512	Sheets (122 mm x 80 mm)	100	38,955.00

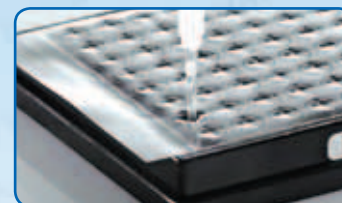

Pierceable Film

Strong adhesive seal with cross-cut windows, peelable, pierceable, suitable for 96 well plates (auto samplers, HPLC, sequencers).

- Peelable and pierceable film with a strong adhesive
- Adhesive-free, cross-cut windows allowing for easy access to the sample wells with a tip or probe with minimal pressure
- Adhesive-free windows avoid clogging of tips or needles during piercing
- Developed to facilitate easy sample application or retrieval, for use in automated systems and sample analysers such as HPLC and DNA sequencers

Catalog No.	Description	Qty/Pack	Price/Pack (Rs.)
GEN-0566	Sheets (135 mm x 77 mm)	100	13,900.00

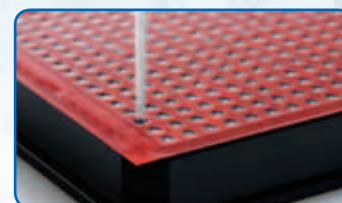

Pierceable Film 384

Strong adhesive seal with cross-cut windows, red adhesive, peelable, pierceable, suitable for 384 square well plates.

- Peelable and pierceable film with a strong adhesive
- Adhesive-free, cross-cut windows allowing for easy access to the sample wells with a tip or probe with minimal pressure
- Adhesive-free windows avoid clogging of tips or needles during piercing
- Red adhesive for easier alignment during seal application
- Developed for use in automated systems and sample analysers such as HPLC and DNA sequencers

Catalog No.	Description	Qty/Pack	Price/Pack (Rs.)
GEN-0566/384	Sheets (117 mm x 80 mm)	100	46,965.00

Air-O-Seal

Gas permeable adhesive seal, peelable, suitable for cell culture.

- Prevents evaporation and contamination whilst enabling cells to breathe
- Suitable for cell culture, enables long term culture with significantly reduced evaporation
- Resistant to acids, DMSO, detergents, ethanol, glycerol, isopropanol and sodium hypochlorite (bleach)
- Due to its paper-based material it should not be used in wet conditions (e.g. for shaking culture)
- Available sterile

Catalog No.	Description	Qty/Pack	Price/Pack (Rs.)
GEN-0517	Sheets (135 mm x 80 mm)	100	8,170.00
GEN-0517/ST	Sheets (135 mm x 80 mm) Sterile	10 x 10	12,015.00

Microplate Seal

Low strength adhesive film, transparent, peelable, suitable for short term storage.

- Transparent polyester-based film with medium strength adhesive
- Low-cost sealing option, suitable for temporary storage and as a cover for applications such as centrifugation

Catalog No.	Description	Qty/Pack	Price/Pack (Rs.)
GEN-0510	Sheets (130 mm x 80 mm)	100	3,775.00

Microcentrifuge Tubes

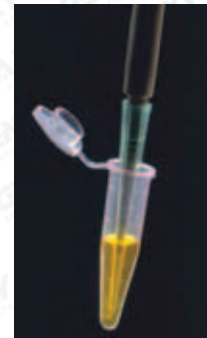

ClickSeal Graduated Micro Centrifuge Tubes

- ClickSeal High-Capacity Microcentrifuge tubes fit all popular microcentrifuge rotors
- Writing surface on flat cap and side wall for quick sample ID
- Superior clarity and external graduations ensure accurate, reproducible lab results
- Withstands temperatures from +121°C to -80°C and RCF of 27,000xg with proper rotor support
- Positive ClickSeal design allows repeated cap closure and eliminates pressure-induced popping of caps during incubation
- Packed in premium Self-standing, Dispenser Packs

SCREW CAP MICRO TUBES

Screw cap tubes are ideal for long term use in a variety of situations. The cap and O-ring are designed to be the perfect complement to the screw tube thus ensuring a perfect seal.

- + Tube/Cap = virgin polypropylene
- + O-ring = silicon rubber (Please loosen the cap and autoclave)
- + Centrifugal force: 30,000xG (physiologic(al) saline 1.8mL/75minutes), Flat top (recordable)

RIA VIAL

These Polypropylene/Polystyrene tubes are generally used in RIA, Coagulation and Bacteriology. The Polypropylene tubes are clear and can withstand 3000 RCF during Centrifugation while the transparent Polystyrene tubes can withstand 1400 RCF. The PP tubes can accept common acids, alkalies & solvents at room temperature while the PS tubes can accept mild bases, weak acids but not organic solvents.

CENTRIFUGE TUBES

GENAXY Brand Centrifuge Tubes are designed to meet the needs of your laboratory. These 15ml clear polypropylene Centrifuge tubes comes with the advanced High Density Polyethylene caps packed in high quality ziplock bags. These tubes has a easy one hand operation with Large writing area for sample identification.

- ✦ Maximum RCF is 12,500 xg - Temperature range from -80°C to 120°C - 5 year shelf life Ease of Use
- ✦ Leak proof design - Easy-on/easy-off cap - Clear accurate graduations - Large white marking spots Reliable Quality
- ✦ Certified RNase-/DNase-free - Heavy-metal-free color concentrate - Medical grade polypropylene - Nonpyrogenic - Sterile
- ✦ Leakproof design cums with a high density

CRYOGENIC VIALS

Genaxy cryo tubes are intended to store samples in freezers or similar low-temperature equipment. During storage build up of stress on the product can happen, the Genaxy design as well as the high grade material ensures safe handling during and after the unfreezing process.

External Thread, Cryo Tubes Without/O-rings

- With the geometry of the external thread, Genaxy can abstain from using a silicone gasket, enabling the secure and tight closure of the tube
- The external threading results in a smooth internal surface that eliminates undue loss of specimen material during removal.
- Supplied in convenient, puncture and tear resistant re-closable bags with zipper and laser perforation
- Self-standing, Star foot
- Graduated with large writing surface. A

GEN-ML77-50A	50-Hole Rack for 1.2ml & 2.0ml Cryogenic Vial	5 Racks	2,945.00
GEN-ML77-81A	80-Hole Rack for 1.2ml & 2.0ml Cryogenic Vial	5 Racks	3,410.00

*HSN CODE: 3926.90.79 (18%)

Excellent bottom uniformity

Special lid design ensures low evaporation

Frosted and noise-free bottom design for easy grip

Vents for gas exchange

Stackable for easy storage and handling

CELL AND TISSUE CULTURE PRODUCTS

Cell and Tissue Culture Plates

GENAXY cell culture plates have round edges for better handling. Low profile, low-evaporation lid design assures uniform growth. Choose tissue culture-treated or nontreated surfaces. Nontreated growth surface is more hydrophobic than tissue culture surface and is similar to the surface of a bacteriological Petri dish. Small feet on the bottom corners of each plate eliminate scraping of the microscope lens.

- + Sterilized by E-beam
- + High clarity, 100% virgin polystyrene
- + Vacuum Plasma tissue culture treatment
- + Clear lot number for batch traceability
- + Peel-to-open, individually wrapped
- + Markings of well coordinates available for 12, 24, 48 96 and 384 well plates
- + Non-Pyrogenic, DNase/RNase FREE

Cell and Tissue Culture Dishes

GENAXY cell culture dishes are ideal for all types of culturing where microscopic examination is required. Numeric indicators on the bottom of each plate allow users to identify the location of cells.

- + High clarity polystyrene
- + Flat transparent surface for distortion-free observation
- + Vacuum plasma TC treatment, excellent cell adherence
- + Stackable for easy storage and handling
- + Sterilized by E-Beam
- + Non-pyrogenic

TISSUE CULTURE PRODUCTS

Cell and Tissue Culture Flasks

GENAXY cell culture flasks are available in cell growth areas ranging from 25cm² to 225cm². Tissue culture treated or non-treated flasks available with a vent cap or plug seal cap to meet your needs.

- + Packaged in sterile, zip-sealable bags
- + High clarity, 100% virgin polystyrene
- + Frosted writing and clear graduations
- + Notched bottom for slip free stacking
- + Sterilized by E-Beam
- + Vent caps (with breathable .22um membrane)
- + Clear lot number for batch traceability
- + Non-Pyrogenic, DNase/RNase FREE

Available at T25/75/175/225 sizes

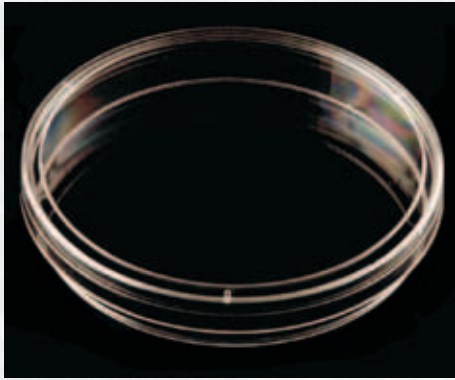

Vent caps with 0.22um hydrophobic filter for gas exchange without contamination

Plug seal caps & vent caps

Plug seal caps & vent caps

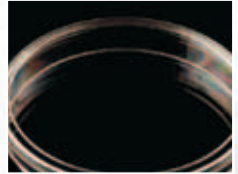

90 x 15 mm Stackable Petri Dish

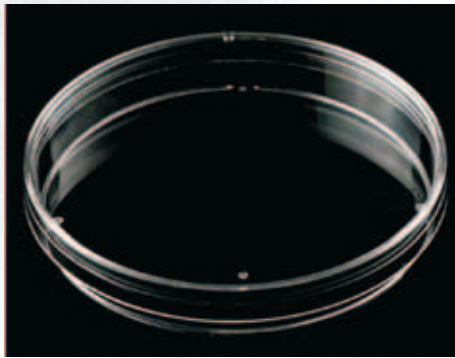

- Clear top and bottom viewing surfaces
- Disposable (single use) Polystyrene petri dish for general microbiological use
- Molded from medical grade virgin polystyrene
- Radiation sterilized
- Ventilation ribs allow for free air circulation and reduces condensation during incubation
- Consistent flatness allows for even media distribution
- Flared Lid skirt and squared corners for easy one hand operation, especially with gloves
- Certificates of Sterilization Processing available upon request
- Traceable by lot number

Ventilation ribs allow for free air circulation and reduces condensation during incubation

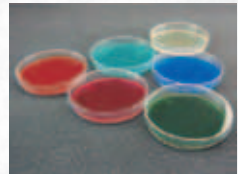

Manufactured from virgin grade polystyrene for optimum clarity and quality

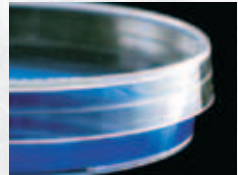

90 x 15 mm Slippable Petri Dish

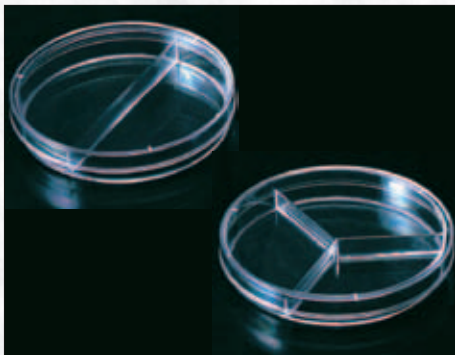

- Standard slippable petri dish
- Designed for automated filling and streaking systems
- Disposable (single use) Polystyrene petri dish for general microbiological use
- Molded from medical grade virgin polystyrene
- Radiation sterilized
- Ventilation ribs allow for free air circulation and reduces condensation during incubation
- Consistent flatness allows for even media distribution
- Flared Lid skirt and squared corners for easy one hand operation, especially with gloves
- Certificates of Sterilization Processing available upon request
- Traceable by lot number

Manufactured to the highest quality for consistent flatness and even media distribution

Specially designed "slippable" lid is ideal for use in automated equipment

90 x 15 mm Stackable Bi-Plate & Tri-Plate

- Designed for simultaneous studies of organisms in a common environment
- Two & Three compartments for easy identification
- Disposable (single use) Polystyrene petri dish for general microbiological use
- Molded from medical grade virgin polystyrene
- Radiation sterilized
- Ventilation ribs allow for free air circulation and reduces condensation during incubation
- Consistent flatness allows for even media distribution
- Flared Lid skirt and squared corners for easy one hand operation, especially with gloves
- Certificates of Sterilization Processing available upon request
- Traceable by lot number

130 x 130 x 15 mm Square Plate

- Designed for simultaneous studies of organisms in a common environment
- Three compartments for easy identification
- Disposable (single use) Polystyrene petri dish for general microbiological use
- Molded from medical grade virgin polystyrene
- Radiation sterilized
- Ventilation ribs allow for free air circulation and reduces condensation during incubation
- Consistent flatness allows for even media distribution
- Flared Lid skirt and squared corners for easy one hand operation, especially with gloves
- Certificates of Sterilization Processing available upon request
- Traceable by lot number

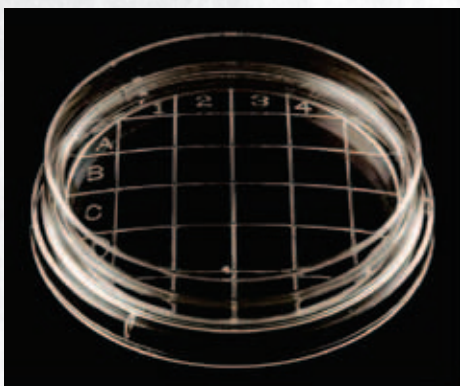

60 x 15 mm Petri Dish

- Smaller diameter uses less media - "Media Saver"
- Clear viewing surface
- Clear top and bottom viewing surfaces
- Ideal for use in Automation
- Disposable (single use) Polystyrene petri dish for general microbiological use
- Molded from medical grade virgin polystyrene
- Radiation sterilized
- Ventilation ribs allow for free air circulation and reduces condensation during incubation
- Consistent flatness allows for even media distribution
- Flared Lid skirt and squared corners for easy one hand operation, especially with gloves
- Certificates of Sterilization Processing available upon request
- Traceable by lot number

Smaller diameter uses less media "Media Saver"

65 x 15 mm Contact Plate

- For bio-burden counts on working surface
- Domed base with grid provides convex media surface
- Grid is molded on the surface of the base
- Unique base prevents contamination from fingers touching media
- Disposable (single use) Polystyrene petri dish for general microbiological use
- Molded from medical grade virgin polystyrene
- Optically-clear
- Radiation sterilized
- Ventilation ribs allow for free air circulation and reduces condensation during incubation
- Consistent flatness allows for even media distribution
- Certificates of Sterilization Processing available upon request
- Traceable by lot number

Grid is molded on the surface of the base - marked alphanumerically

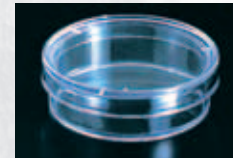

Domed base with grid provides convex media surface

GENAXY BRAND GLOVES

Genaxy gloves are Powder-Free disposable gloves to protect the hands from all types of hazards - chemicals, particulates, biological and other contaminants. The material these products are made of each have its own benefits of use and can impact a worker's ability to perform their job tasks.

NITRILE GLOVES

Provides exceptional puncture and chemical resistance with excellent barrier qualities - without the presence of any natural rubber proteins. Today's nitrile comes in a variety of mil thickness and colors depending on the application. Finger textured nitrile gloves offered with all essential and exceptional certifications and registrations to become one of the leaders in the market.

- ↳ ISO 9001 Certification and FDA Registered
- ↳ CE Marked - EN455 and AQL 1.5

Nitrile Disposable Exam Gloves (9.5 inch length and 4.0 mil palm) A

Latex Gloves

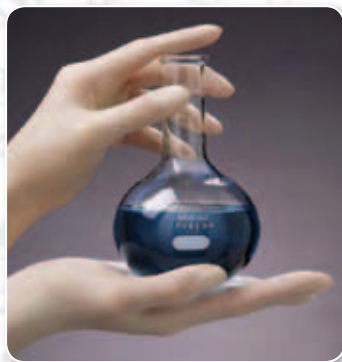

The benchmark for fit, comfort and protection. For those not concerned with latex protein allergies, these gloves provide superior elasticity and tensile strength.

- ✦ Natural rubber latex construction offers high elasticity for greater comfort and less hand fatigue
- ✦ Superior tactile sensitivity
- ✦ Fully textured exterior ensures secure grip
- ✦ Tapered fingers for greater comfort
- ✦ Beaded cuffs for easy donning and doffing
- ✦ Powder-free, nonsterile
- ✦ Ambidextrous, single-use
- ✦ Weight : 5.9gm
- ✦ Length: 9.5 in.

the unique GENSleek

Comfortable Finger Rest
For resting of the pipette on either hand

Soft Comfort
The smooth plunger mechanism offers least resistance for ease and effortless accuracy

Tip Ejector
For smooth ejection of the tip

Ergonomy
Best in-hand grip for comfort

Precise Setting
Of the selected volume ensures accurate aspiration & dispensing of the liquid

Light Weight
Pipette makes your job less tiresome & improves efficiency

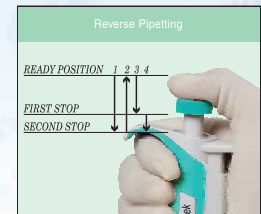

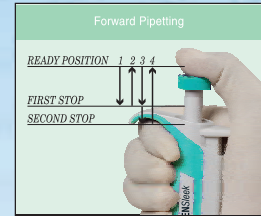

Ideal Shaft Shape
Helps reach contents in narrow or deep tubes

Durable Tip Cone
Offers highest resistance to shocks and chemical corrosion

Fully available UV resistance, suitable for single channel pipettes

- GENSleek is made of mechanically robust and chemically resistant materials, making it a durable and stable pipette giving consistent performance for long time.
- Single hand pipetting can be done smoothly to improve operation efficiency.
- Hand temperature doesn't permeate easily through the body of the pipette. Therefore the accuracy of the volume measurement is not affected.
- Slim nozzle can be easily inserted into tubes to aspirate, which is useful at lab work.

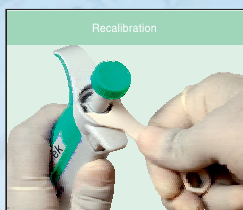

Supplied with Individual quality certification (QC) and calibration report according to ISO8655 CE IVD Complaint

Cell Culture Products
NEST

GENAXY®

Cell Culture Plates

NEST

Cell and Tissue Culture Plates

Nest cell culture plates have round edges for better handling. Low profile, low-evaporation lid design assures uniform growth. Choose tissue culture-treated or nontreated surfaces. Nontreated growth surface is more hydrophobic than tissue culture surface and is similar to the surface of a bacteriological Petri dish. Small feet on the bottom corners of each plate eliminate scraping of the microscope lens.

- ✦ Sterilized by E-beam, high clarity, 100% virgin polystyrene
- ✦ Vacuum Plasma tissue culture treatment
- ✦ Clear lot number for batch traceability
- ✦ Peel-to-open, individually wrapped
- ✦ Markings of well coordinates available for 12, 24, 48 96 and 384 well plates
- ✦ Non-Pyrogenic, DNase/RNase FREE

Cat. No.	Type (Well)	Cell Growth Area (cm ²)	Recommended Medium Vol. (ml)	Colour	Bottom	Sterile	Qty./Pack	Qty./Case	Price(Rs.)
703001	6	9.5	3	Clear	Flat	+	1	50	4,995.00
712001	12	3.6	2	Clear	Flat	+	1	50	5,025.00
702001	24	1.9	1	Clear	Flat	+	1	50	5,200.00
748001	48	0.95	0.5	Clear	Flat	+	1	50	5,750.00
701001	96	0.32	0.1-0.2	Clear	Flat	+	1	100	9,150.00

Cell Culture Dishes

Nest cell culture dishes are ideal for all types of culturing where microscopic examination is required. Numeric indicators on the bottom of each plate allow users to identify the location of cells.

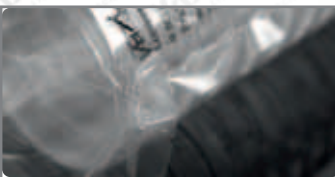

- ✦ High clarity polystyrene
- ✦ Flat transparent surface for distortion-free observation
- ✦ Vacuum plasma TC treatment, excellent cell adherence
- ✦ Stackable for easy storage and handling
- ✦ Sterilized by E-Beam, non-pyrogenic

Cat. No.	Type	Height (mm)	Cell Growth Area (cm ²)	Recommended Medium Vol. (ml)	Sterile	Qty./Pack	Qty./Case	Price(Rs.)
706001	35mm	9.0	9	1.8-2.7	+	20	500	6,450.00
705001	60mm	12.0	21	4.2-6.30	+	20	500	7,775.00
704004	100mm	17.7	55	11-16.50	+	5	300	7,425.00

Cell Scrapers

- ✦ Two sizes are available
- ✦ Easy-tear sterile packing
- ✦ Sterilized by E-Beam, non-pyrogenic and DNase/RNase free

Cat. No.	Total Length (mm)	Blade Width (mm)	Material	Qty./Pack	Qty./Case	Price(Rs.)

710011	280	20	HIPS/PP	1	100	4,115.00

Cell Culture Flasks

Nest cell culture flasks are available in cell growth areas ranging from 25cm² to 225cm². Tissue culture treated or non-treated flasks available with a vent cap or plug seal cap to meet your needs.

- + Packaged in sterile, zip-sealable bags
- + High clarity, 100% virgin polystyrene, VFrosted writing and clear graduations, notched bottom for slip free stacking
- + Vent caps (with breathable .22um membrane, Clear lot number for batch traceability)
- + Non-Pyrogenic, DNase/RNase FREE, Sterilized by E-Beam

Cat. No.	Cell Growth	Volume (ml) Area (cm ²)	Recommended Medium Vol. (ml)	Cap Type	Sterile	Qty/Pack	Qty./Case	Price(Rs.)

BIOLAB Accessories

ISO 9001:2008

to adorn your Laboratory

Supporting Research
for
Expedient Results !!

Zeal to brace research firmly

GENAXY offers a range of:

- ▶ MICROSCOPES
- ▶ PORTABLE COOLER
- ▶ CRYO TAGS
- ▶ PETRI SEALS
- ▶ TUBE RACKS
- ▶ CENTRIFUGE TUBES

AND MORE...

▶ **TOUGH TAGS**

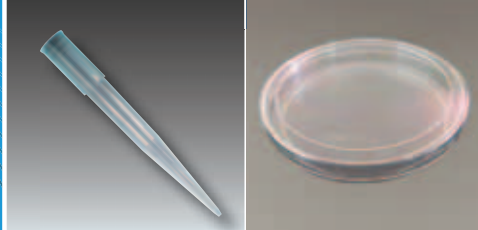

Manufactured in chemically inert polyester, withstand steam autoclaving, boiling water baths, freezing to -20°C, plus brief contact with harsh chemicals.

▶ **CRYO LABELS**

Cryo-Babies and Cryo-Tags, are flexible polyolefin labels that withstand conventional and cryogenic storage conditions, boiling water baths at 100°C and dry heat up to 150°C.

▶ **MICROCENTRIFUGE TUBE HOLDER**

Polypropylene holders securely fit 0.5 and 1.5 mL standard microcentrifuge autoclavable tubes.

SEALING & LABELING

ContainerSEAL

Container Seal™ is a sealing tape designed for the vast range of bottles and containers used in laboratory applications. Its unique elastomeric characteristics allow it to stretch and conform around the irregular perimeters of containers lids and covers to form a tight seal. Container Seal will block water vapor loss, reduce the rate of gas exchange and prevent the entry of contaminants. Ideally sized (0.75" wide), the tape can be easily removed from most surfaces without leaving an adhesive residue. Available in a variety of colors.

Catalog No.	Description	Qty/Pack	Price/Pack (Rs.)
GEN-CSEAL-75-W	ContainerSEAL, 3/4" x 108'	each	5,478.00
GEN-CSEAL-XL-W	ContainerSEAL XL, 1.0" x 108'	each	6,143.00

Solvent Resistant Marker Pens

Catalog No.	Description	Qty/Pack	Price/Pack (Rs.)
GEN-122 BLACK	Solvent Resistant Pens, Black	each	750.00
GEN-130 RED	Solvent Resistant Pens, RED	each	750.00
GEN-TNY-TWIN	Solvent Resistant Pens, Twin-Tip, Black	each	700.00

GEN-SHRP-1000	Permanent Marker, Blue, Black	each	400.00
GEN-SHRP-2000	Permanent Marker, Blue, Black	each	400.00
GEN-SHRP-4000	Permanent Marker, Blue, Black	4 pcs.	1,500.00

Petri-Seal/Petri- Stickers

Petri Seal stretches and conforms to form a tight seal and is temperature resistant, waterproof and chemically resistant. It resists abrasion and puncture and blocks vapor loss while reducing the rate of gas exchange. Use PetriSeal with microtiter plates, Petri dishes and culture plates to prevent to entry of contaminants. The seal remains flexible down to -30°C and can withstand continuous exposure from -40°C to +77°C.

Catalog No.	Description	Dimension	Qty/Pack	Price/Pack (Rs.)
GEN-P-108-C	Petri Seal Tape, clear	0.5" x 108"	Roll	4,195.00
GEN-P-108-W	Petri Seal Tape, white	0.5" x 108"	Roll	4,195.00

Tough-Tag

Tough-Tags are manufactured in chemically inert polyester. These labels will withstand steam autoclaving, boiling water baths, freezing to -20°C, plus brief contact with harsh chemicals.

Catalog No.	Description	Size	Price/Pack (Rs.)
GEN-T-Tag-W	Tough -Tags white 0.94" x 0.5"	1000 tag	3,315.00

Cryo- Babies and Cryo Tags

Cryogenic labels (Cryo-Babies are the small sizes and Cryo-Tags are the larger), are flexible polyolefin labels that withstand conventional and cryogenic storage conditions. The labels are chemically inert. Cryo-Babies and Cryo-Tags will withstand boiling water baths at 100°C and dry heat up to 150°C.

Catalog No.	Description	Size	Price/Pack (Rs.)
GEN-CRY-1000	Cryo-Babies White 1.28" x 0.5"	1000 Tag	3,375.00
GEN-CRY-2000	Cryo-Tag White 1.5" x 0.75"	1000 Tag	3,375.00
GEN-CRY-0500	Cryo-Babies 0.94" x 0.50"	1000/roll	3,375.00
GEN-CLEAR-170	Cryogenic Storage Labels Clear 1.28" X 0.50"	1700/pack	6,750.00
GEN-CLEAR-238	Cryogenic Storage Labels Clear 0.94" X 0.50"	2380/pack	6,750.00

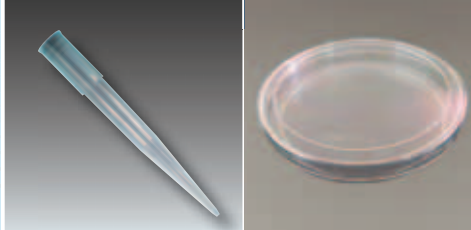

Labelling Tape

This multi-purpose tape is designed to provide the perfect solution to a wide variety of Labelling needs. Write on Specially Labelling Tape with ball point pencil or felt marker. The tape is boil proof, waterproof, and acid resistant. It holds tightly to temperatures as low as -70°F as high as +120°F.

Catalog No.	Description	Size	Price/Pack (Rs.)

RACKS & STORAGE BOXES

96-Well Reversible Rack

Easy-to-grasp tabs for sample handling and storage. 96 wells for 0.5 mL tubes on one side and 96 wells for 1.5/2.0 mL tubes on the reverse side. Made of polypropylene. Wells are arranged in standard 8 x 12 array. Tabs on each end of rack snap lid into place. 0.5 mL wells separated by molded-in grid lines, making them easier to see. Raised rings around the 1.5 to 2.0 mL wells make tubes easier to remove.

+ **autoclavable**

Catalog No.	Description	No. of Wells	Qty/Pack	Price/Pack (Rs.)
HS2345A	Reversible Rack,0.5ml/1.5-2.0ml MCT,assorted	96 Wells	5 Racks	5,950.00
HS2345B	Reversible Rack,0.5ml/1.5-2.0ml MCT,clear	96 Wells	5 Racks	5,950.00

96-Well Reversible Rack

81-Well Micro Tube Storage Boxes

Compact footprint for microtube and cryogenic vial storage. Made from polypropylene. Store microtubes or cryogenic vials. Easy open, friction fit lid. Safe for low temperature storage. Black light tight version available for light sensitive samples. Tubes: 1.5/2.0 mL. Well Dia: 12.3 mm

+ **autoclavable**

Catalog No.	Description	No. of Wells	Qty/Pack	Price/Pack (Rs.)
HS120040	Freezer Storage Rack, 1.5/2.0ml, MCT & Cryovials, assorted	81- Well	5 Racks	3,465.00
HS120034	Freezer Storage Rack,1.5/2.0ml, MCT & Cryovials, clear	81- Well	5 Racks	3,465.00

*Improved & upgraded version of **HS23255G / HS23255A**

81-Well Micro Tube Storage Boxes

100-Well Microtube Storage Rack

Secure storage for microtube and cryogenic vials. For larger storage requirements of 1.5/2.0 mL microtubes or cryogenic vials. Black, light-tight version available for light sensitive samples. Easy-open hinged lid with snap clasp. Well dia.1.23cm. Color: Assorted (blue, green, purple, yellow, orange).

+ **autoclavable**

Catalog No.	Description	No. of Wells	Qty/Pack	Price/Pack (Rs.)

*Improved & upgraded version of **HS1064 / HS1065**

100-Well Micro Tube Storage Rack

80-Well Microtube Racks

Popular fraction-collector-plate style rack. Made of polypropylene. Easily fill and transfer 80 tubes in compact arrangement. Compact arrangement (5x16 array). Molded-in coordinates to aid organization.

+ **autoclavable**

Catalog No.	Description	Color	Qty/Pack	Price/Pack (Rs.)
HS29025A	80-Well Microtube Racks	Natural	5/pk	2,350.00
HS29025G	80-Well Microtube Racks	Assorted	5/pk	2,350.00

80-Well Micro Tube Rack

50-Well Microtube Storage Boxes

Ideal for sample or case study storage. Made from polypropylene. Great for smaller storage requirements of 1.5/2.0 mL microtubes or cryogenic vials. Easy-open hinged lid with snap clasp.

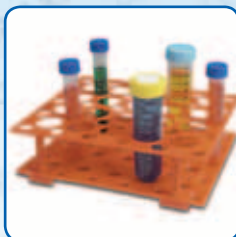

Catalog No.	Description	Color	Qty/Pack	Price/Pack (Rs.)
HS120032	50-Well Microtube Storage Boxes 1.5/2.0 mL	Natural	5/pk	2,985.00
HS120033	50-Well Microtube Storage Boxes 1.5/2.0 mL	Assorted	5/pk	2,985.00

50-Well Microtube Storage Boxes

Cube Rack & 4 Way Microtube Racks

Snap-Together Conical Tube Rack

Pop-Up Rack

Rota-Rack Tube Rack

☉ CUBE Rack & 4-way Microtube Racks

Interlocking multi-tube racks. Our user friendly cube rack allows you to work with different sized tubes all in the same plane. Heavy duty polypropylene rack.

Catalog No.	Description	Color	Qty/Pack	Price/Pack (Rs.)
HS29050A	Cube Rack (4 x50ml, 10x15ml, 12x (12x75) or (12x 100) tubes16x1.5/2.0ml tubes),	Assorted	5 Racks	5,550.00
HS29022G	4-way Microtube Racks, PP, autoclavable (4x50ml, 12x15ml, 32 x1.5ml and 32x0.5ml tubes)	Assorted	5 Racks	4,750.00

☉ Snap-Together Conical Tube Rack

Uses 15mL & 50mL tubes simultaneously, easy to assemble ABS rack. Designed for stable use in water baths. Alphanumeric grid reference aids for tube identification.

+ **non autoclavable**

Catalog No.	Description	Tubes	Wells	Qty/Pack	Price/Pack (Rs.)
HS24306	Snap-Together Conical Tube Rack	15 mL/50mL	30/20	1 each	2,600.00

☉ Pop-Up Rack

POP-UP Tube Rack. Collapse for compact storage and "pop-up" for quick use. Made from polypropylene, Easy to open — easy to close. Designed to help organize 15 and 50 mL tubes. Imprinted grid aids quick retrieval. Stack racks in open or closed position, Saves space when racks are not in use.

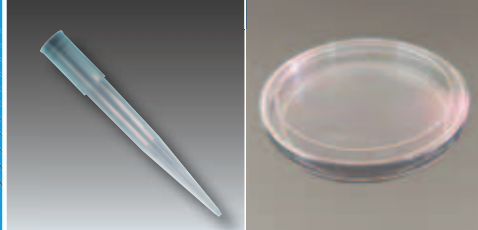

Not recommended for cleaning in autoclave

Catalog No.	Description	Color	Qty/Pack	Price/Pack (Rs.)
HS24320B	15 & 50mL, 21/12 wells, Pop-up Rack	Blue	2/pk	3,650.00
HS24320P	15 & 50mL, 21/12 wells, Pop-up Rack	Pink	2/pk	3,650.00
HS24318	15mL, 45 wells, Pop-up Rack	Purple	2/pk	3,650.00
HS24319	50mL, 18 wells, Pop-up Rack	Green	2/pk	3,650.00

☉ Rota-Rack Tube Racks

Get organized with this fun, interlocked rack. Rotate each of the four modules independently to configure for the tubes that you want to use. Made from polypropylene. Suitable for a massive variety of culture, centrifuge, micro centrifuge, round, flat or conical bottomed tubes. Polypropylene rack maintains its orientation until you twist it again. Two versions to cover smaller and larger tube requirements

Catalog No.	Tube / Module	Wel / Module	Color	Qty/Pack	Price/Pack (Rs.)
HS29040A	50 mL (224 x 110 x 110)	2	Assorted	1 module	5,145.00
	15 mL	8			
	20 mm	6			
	10-13 mm	10			
HS29040B	15 mL (210 x 100 x 100)	6	Assorted	1 module	5,145.00
	1.5/2.0 mL	9			
	0.5 mL	12			
	0.2 mL	32			

96-Well PCR Racks

96-Well PCR® Tube Rack, perfect for pre- or post-PCR® sampling. Made of polypropylene, accommodates individual tubes or strips. Removable hinged lid lies flat, tube wells are easily identified with embossed numbers and letters.

+ **autoclavable**

Catalog No.	Description		Qty/Pack	Price/Pack (Rs.)
HS23461A	96-Well PCR Racks	Assorted	5/pk	4,150.00
HS23461B	96-Well PCR Racks	Natural	5/pk	4,150.00

96-Well PCR Racks

Biohazard Disposable Bag & Hold

For personal or general lab use, sizes to suit all needs, a range of biohazard collection bags printed with biohazard warning symbol and precautions in English, Spanish, and French, available in 2 thicknesses of polypropylene. Includes an indicator patch that darkens when autoclaved. Autoclavable to 250°F (121°C), Disposable.

Catalog No.	Description	Dimn.	Qty/Pack	Price/Pack (Rs.)
HS10044H	Biohazard Bag Holder	91 x 128 x 21	1	2,650.00
HS10320	Biohazard Bags, 1.57-mil thick	203 x 305	500	11,235.00

HS10323	Biohazard Bags, 1.57-mil thick	635 x 838	200	37,520.00

Biohazard Disposable Bag & Hold

Autoclavable Bags

Clear bags imprinted with blue biohazard labeling designed for safe disposal. Constructed of 2.0 mm thick polypropylene, allowing for repeated autoclaving, strong side seams for securely holding items, front write-on panel. Autoclavable at 250°F (121°C). Disposable

Autoclave Bags, Autoclavable Bags, Biohazard Bag, Clear

Catalog No.	Description	Qty/Pack	Price/Pack (Rs.)
HS1002A	Autoclave bags 310 x 660mm,	200	10,886.00
HS1002B	Autoclave bags 415 x 600mm,	200	12,096.00
HS1002C	Autoclave bags 610 x 810mm,	200	22,680.00

Stainless Steel Cell Spreader

Stainless Steel : Reusable, Flame and autoclave sterilizable

Catalog No.	Description	Qty/Pack	Price/Pack (Rs.)
HS86655	Large SS Cell Spreaders	5/PK	6,975.00

Stainless Steel Cell Spreader

Spatulas

Transfer, lift, and handle powders and granular materials, made from nickel-plated, stainless steel wire, Glazed spatula HS15906 has a Hayman-type end

+ **autoclavable**

Catalog No.	Description	Length (mm)	Finish	Qty/Pack	Price/Pack (Rs.)
HS15906	Flat End, 30 L; spoon, 12 L x 4 W	150	Glazed	10 / PK	5,000.00
HS15907	Round Flat End, 50 L x 8 W; Tapered flat end, 45 L x 6.5 W	195	Mirror	10 / PK	5,000.00
HS15909	Flat End, 50 L; spoon, 38 L x 15 W	225	Mirror	10 / PK	5,300.00

SPATULAS

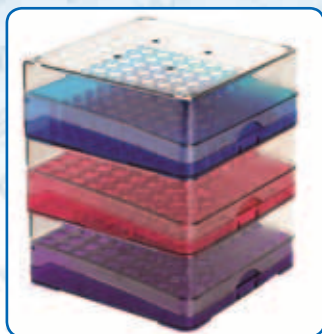

TIMERS

Stopwatches & Timers

Pocket Timer/Stopwatch/Clock, four independent timing channels with visual and audible alarms. Use as a stopwatch, a count up/down timer, or a clock, includes spring clip and magnetic back.

Catalog No.	Description	Qty/Pack	Price/Pack (Rs.)
HS120365	4 way timer with white board/Pen	1	3,334.00
HS24645	Multi-Function Stop Watch	1	3,917.00
HS24490D	Pocket Timer/stopwatch	1	2,832.00
HS24780	Big-Digit Dual Timer	1	4,750.00
HS24490M	Triple Timer	1	3,734.00
HS24670	Four Channel Timer/Clock	1	2,870.00
HS24651	Time Tracker	1	9,900.00
HS24653	Time Tracker Mini	1	5,980.00

CRYOSTORAGE BOXES

Arctic Square Polycarbonate Cryostorage Boxes

ARCTIC SQUARES® POLYCARBONATE CRYOSTORAGE BOXES. Safely store vials from -196 to +121°C in mechanical freezers as well as liquid nitrogen! Our polycarbonate boxes are designed with unique features to help orient, identify and access vials with ease. Hinged lid with built-in stop allows easy one-handed access to samples (not on 25 place) Forward-sloped base and high contrast indexing on the transparent lid ensure quick visual orientation. Magnetic tipped forceps supplied with styles B and D help pick vials and remove boxes from freezer racking. All boxes have vent and drainage holes, are stackable

Catalog No.	Description	Color	Qty/Pack	Price/Pack (Rs.)
HS23300D	Arctic Square™ Cryo-Box PC 100 Place	Blue	4/pk	5,755.00
HS23325A	Arctic Square™ Cryo-Box PC 25 Place	Red	8/pk	7,040.00
HS23381B	Arctic Square™ Cryo-Box PC 81 Place	Assorted	4/pk	5,755.00
HS23381C	Arctic Square™ Cryo-Box PC 81 Place TALL	Purple	5/pk	8,865.00

True North Chilling Jar

Quickly freeze samples at -1°C per minute rate, Designed to rapidly chill cryogenic vials in freezer—alcohol-filled jar speeds freezing rate. Easily fill jar to visible liquid level graduation with isopropyl alcohol. Holds eight 1.2 to 2.0 mL cryogenic vials; fits most brands

Catalog No.	Description	Size	Qty/Pack	Price/Pack (Rs.)
HS23230A	True North Chilling Jar	123 mm dia x 105 mm H	Each	4,950.00
HS28630	Freezer Thermometer		Each	4,225.00

BRAY-5000

4" Firm Deluxe Rubber Brayer/ Microplate Brayer

- Technical Description: Rubber roller mounted on a single-piece ergonomic plastic handle.
- Ideal Uses: Uniformly applying sealing films to microplates.
- Uniformly seal your films to microplates with this 4 Brayer. Its perfect for all your sealing films

Catalog No.	Description	Qty/Pack	Price/Pack (Rs.)
BRAY-4000	4" Soft Rubber Brayer	Each	2,500.00
BRAY-5000	Deluxe Microplate Brayer	Each	2,500.00

CERTIFIED ISO 9001:2008

WATER DISTILLATION UNITS

Glass Distillation Apparatus

Automatic Electrically heated All Glass Distillation Apparatus. Heater embedded in spiral glass tube complete with heavy cast iron base, rod, clamps etc.

Catalog No.	Description	Flask Capacity	Qty.	Price (Rs.)
190/01	Single Distillation with Automatic Cutoff Device with electrodes	3Ltr.	each	24,300.00
190/02	Double Distillation with Automatic Cutoff Device with electrodes	3Ltr.	each	49,335.00
190/03	Single Distillation with Automatic Cutoff Device with electrodes	5Ltr.	each	27,245.00
190/04	Double Distillation with Automatic Cutoff Device with electrodes	5Ltr.	each	55,225.00
190/05	Tripple Distillation with Automatic Cutoff Device with electrodes	5Ltr.	each	81,735.00
190/06	Single Distillation with Automatic Cutoff Device with electrodes	10Ltr.	each	37,555.00
190/07	Double Distillation with Automatic Cutoff Device with electrodes	10Ltr.	each	75,840.00
190/08	Tripple Distillation with Automatic Cutoff Device with electrodes	10Ltr.	each	1,14,125.00

Spare Parts for Water Distillation

190/11	Flask with Heater	3 Ltr.	each	8690.00
190/12	Flask with Heater	5 Ltr.	each	11,045.00
190/13	Flask with Heater	10 Ltr.	each	18,410.00
190/14	Condenser with B40 cone	3 Ltr.	each	2,800.00
190/15	Condenser with B40 cone	5 Ltr.	each	2,800.00
190/16	Condenser with B50 cone	10 Ltr.	each	3,240.00
190/17	Constant level cup		each	375.00
190/18	Receiver Adapter		each	300.00

Catalog No.	Description	Flask Capacity	Qty.	Price (Rs.)
190/19	Connecting Adapter		each	665.00
190/20	Auto Cutoff device	Single	each	3,685.00
190/21	Auto Cutoff device	Double	each	5,155.00
190/22	Auto Cutoff device	Tripple	each	8,100.00

Water Stills

Carefully designed to produce high purity pyrogen free distilled water. The water still of borosilicate glass comprises of horizontal type boiler, condenser, constant level device, silica sheatherd (Quartz) heaters along with stand & clamps. All parts are replaceable.

Catalog No.	Output	Stage	Qty.	Price (Rs.)
191/01	Approx. 1.5 Ltr./Hr. with Auto Cutoff	Single	each	23,565.00
191/03	Approx. 1.5 Ltr./Hr. with Auto Cutoff	Double	each	48,595.00
191/05	Approx. 3 Ltr./Hr. with Auto Cutoff	Single	each	36,815.00
191/07	Approx. 3 Ltr./Hr. with Auto Cutoff	Double	each	75,110.00

Spare Parts for Water Stills

191/10	Boiling Chamber	1.5 Ltr.	each	4,420.00
191/11	Boiling Chamber	3 Ltr.	each	7,065.00
191/12	Coil Condenser	1.5 Ltr.	each	3,535.00
191/13	Coil Condenser	3 Ltr.	each	5,445.00
191/15	Receiver Adapter		each	255.00
191/16	Silica Sheathed Heater		each	7,510.00
191/16A	Silica Sheathed Heater		each	8,135.00
191/17	Auto Cutoff device	Single	each	3,680.00
191/17A	Auto Cutoff device	Single	each	5,155.00
191/18	Auto Cutoff device	Double	each	5,155.00
191/18A	Auto Cutoff device	Double	each	7,220.00

Quartz Distillation Unit

Quartz boiler with inbuilt heater and borosilicate condenser complete with stand, clamps etc.

Catalog No.	Output	Qty.	Price (Rs.)
195/01	Approx. 2 Ltr./Hr. with Auto Thermal sensor Cutoff	each	67,685.00
195/02	Approx. 5 Ltr./Hr. with Auto Thermal sensor Cutoff	each	1,06,165.00

Spare Parts for Water Stills

195/05	Quartz Boiler 2 Ltr.	each	31,665.00
195/06	Quartz Boiler 5 Ltr.	each	53,750.00
195/07	Condenser Borosilicate for 2 Ltr.	each	6,330.00
195/08	Condenser Borosilicate for 5 Ltr.	each	8,100.00
195/09	Auto Thermal sensor Cutoff for 2 Ltr.	each	15,465.00
195/10	Auto Thermal sensor Cutoff for 5 Ltr.	each	19,915.00

BURETTES

Burettes with Straight Bore Glass Key Stopcock Class "A"

Accuracy as per Class 'A' 1997:2008, ISO 385:2005 with works certificate

Catalog No.	Capacity (ml.)	Sub Division (ml.)	Tolerance (\pm ml.)	Qty.	Price (Rs.)
